

Table A – Results of Internal Review Committee

Date of Review/Recommendation: April 7, 2006

Water Body Under Evaluation:

Identification #: 3097
Name: Ditch #6 (C)
Length of Segment: 22.0 miles
County (ies): New Madrid & Stoddard

Use Attainability Analysis Study:

Identification #: 413
Submitter: Environmental Resources Coalition
Date(s) Conducted: April 16, June 3, October 27, & signed December 22, 2005
Date Received: December 22, 2006
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Correct Forms Used?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Forms Signed and Dated?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Comments:		

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

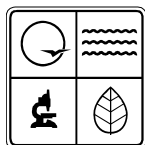

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments: Seven interviews were conducted.

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The survey occurred in April, June, and October 2005 and no WBCR was observed. The stream did not meet the maximum or the average depth criteria at any of the five sites evaluated. Interviews indicate no existing use because of too many snakes and nasty water. Due to the overall shallow depth of the stream, the committee recommends that the WBCR designation be removed.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive

Committee Members: Mary Clark, Ann Crawford, Anne Peery
